KEYS OF KNOWLEDGE

PORPOISE

The porpoise most of us are familiar with is really a Bottle-Nosed Dolphin. And their scientific name is *Tursiops Truncatus*.

The Bottle-Nosed Dolphin has a mouth full of sharp teeth but there is no record that he has ever attacked a human in the water.

Much research is now being done on certain members of the Cetacean family which includes the whale, dolphin and porpoise.

Many commercial aquariums house one or more of the Bottle-Nosed Dolphins that are taught tricks just to amuse the public.

Some scientists believe the whistles made by the Bottle-Nose are words from the whistle-talk used many years ago by the Indians.

Souped-up Coupe

It's Kaiser's spunky little '51 Henry J—a hot contender in the gas-coupe drag class at strips across America. Revell's new 1/25 scale model of Henry J has the same authentic features as the real drag car. You build it like it really is, with hood and front fenders that tilt forward, doors that open, detailed 427 SOHC Ford engine. You'll dig the hollow tires, tinted windows and chrome trim.

MINI-COMICS

SHOW AMAZING LIVE SEA MONKEYS!

Just Add Water— you've got "INSTANT LIFE"!

Yes, it's the living truth! In only five minutes you will actually hatch a whole tumbling, playful, happy troupe of Sea-Monkeys that are even more fun than a zoo full of chattering, howling jungle monkeys! World's most amazing new pet, children and adults alike will laugh and thrill with wonderful excitement. Watch the comic antics of these fantastic underwater buffoons that are really alive. Any minute of the day or night, you'll see them chase one another in a playful game of tag. The loser gets caught by his tail and is spun in a dizzy circle. See the showoffs turn cartwheels of joy in the water . . . see the ticklish ones "scratch" each other's backs. Watch them swim singly or in ever-changing graceful formations, creating a live sea-circus.

These genuine living sea animals begin life from a seemingly inanimate handful of glistening crystals which contain the secret of life. A fantastic genetic material that stays alive for as long as twenty years. And these delightful pets that are born alive are so tiny . . . only three-quarters of an inch long when full grown, you raise an entire troupe in an ordinary glass of water from your sink. It's so safe, just empty the package of crystals we send you into the fish bowl of water and you will immediately see "instant life." Best of all, you can create a whole new brood at any time, to give as gifts or sell if you wish.

They Obey Your Silent Commands

You can actually make these marvelous Sea Monkeys behave like a bunch of trained seals as they follow a beam of light anywhere. Just darken the room and watch them follow a flashlight or candle beam forward, backward, sideways or around like a pack of happy kids playing Follow the Leader. So don't delay! Order now. Only \$1.00 plus 25¢ shipping charges complete.

Receive with each order, a magnificent, fully illustrated "Instant Life" Handbook of instructions, tricks, training and amazing life history of Sea-Monkeys. PLUS — A FULL YEAR'S SUPPLY of special Sea-Monkey Growth Food to feed your fantastic pets! NOTE: Sea-Monkeys are so simple to handle, even a 6 year old child can raise them successfully!

PREHISTORIA

THE MARSH DWELLERS

At the end of the last Ice Age the melting glaciers left large parts of the Northern Hemisphere inundated with lakes, streams and swampland. Here developing mankind found new sources of food such as roots and bulbs. These men devised the bone mattock, used for digging. They invented the hafted axe to fell the trees of the forest—also the adze, a cutting tool, to help them work the wood and hollow out logs for dugout canoes. Shelters of branches and thatch replaced the old caves. An even more ingenious invention was the portable tent made of animal skins set up on long poles.

Now that the Ice Age was gone, Man learned new ways to preserve his food. He developed methods of salting and smoking meats and fish.

Another vital skill mastered by Man was the tanning of animal skins. The invention of the bone needle enabled him to produce skin clothing and moccasins.

AMAZING \$1 ART OFFER

4 Irresistible Wide Eyed Animals

In Full Color For Your Home

RASCAL

PEANUTS

THEODORE

LINUS

Beautiful and Appealing Oil Paintings

Now Yours as Full Color Large Art Prints

ALL 4 ONLY \$1

Just picture these irresistible critters in your own home. Everyone who sees these appealing animals fall in love with their adorable warmth and touching wide eyes. You just want to take them into your home and into your heart. That's because the artist, Coby, one of America's most perceptive painters of animals has captured the universal appeal and warmth you find only in a funny, friendly wild animal. Under his sensitive brush, the wonder of these lovable jungle animals and the colorful backgrounds combine to give a refreshing glimpse of life. Unfortunately the black and white illustrations here cannot possibly convey all the artist's magical color and brilliant details. Only when you see them in your home can you fully appreciate their magnificent artistry and superb beauty.

OFFER WILL NOT BE REPEATED THIS SEASON

We urge you to order your full color prints now while the supply lasts. The dramatic portraiture of animals is the latest decorator rage, and these are certain to go quickly. In order to show some of the craftsmanship and intricate detail in all the pictures, we have shown one picture larger than the rest. Actually all four fine art prints are the same size, a full 11" x 14" decorator size. So hurry, order now, offer will not be repeated this season in this magazine.
